Havana Party Band

Havana Party Band derives its name and musical influences from the capital of Cuba and its Latin Caribbean music, where in the 50's and 60's the African and Spanish influences created the rhythms: Cha-Cha, Rhumba, Mambo and Salsa. Havana plays the rhythms of the Columbian Cumbia and Merengue. The Merengue is often used for the Conga line. Followed by Argentina with its Classical Tango. Using these rhythms Havana creates the Carnival Party atmosphere for which they are renowned.

Instruments include Guitar, Keyboards, Latin Percussions, Saxophone, Trumpet and Vocals.
