Tenorissimo

Tenorissimo are an exciting new act from the creative team behind The Ten Tenors.

After years of touring the world with The Ten Tenors, some of the more 'experienced' members have put away their suitcases and reacquainted themselves with their families, settling in Brisbane full-time.

While they continue to direct, participate in and support the development of the outrageous successes of The Ten Tenors around the world, you just can't keep great performers off the stage. Tenorissimo! was born as a way for these highly experienced, international

performers to continue to tread the boards, while simultaneously developing talented new young singers who will eventually make their way into the ranks of The Ten Tenors themselves.

Featuring a handful of the finest voices (and dance moves!), The Ten Tenors' audiences ever witnessed, Tenorissimo! reunites fans with familiar faces, singing familiar favourites.

"There's no doubt it'll be a scream", says an excited Matt Hickey. "We know each other like brothers, and performing together has always been enormous fun. We're looking forward to getting back to some of the old favourites too...."he says, referring to Tenor classics, including Funiculi Funicula, Nessun Dorma, O Sole Mio as well as the brilliant classical takes on contemporary tunes that shot The Ten Tenors to national and international acclaim nearly ten years ago.
