The Calibre Cats

CATS OF CLASSY CALIBRE

If you're looking for something a little different, but a hell of a lot of fun, then you might want to get yourself down to see "The Calibre Cats" for a night of quality neo-swing!

Swing music – which had its heyday back in the 1920s – is back in vogue, and the big sound of Queensland's Calibre Cats is bound to get you off your seat and dancing all night long.

The perfect source of entertainment for that roaring 20's theme party, or corporate function. The band features the lead vocals of Bridget Burnell "Dollface" whose unique sound and

sexy style has seen her dubbed as the only female gangster in Australian neo-swing, and backing her up is a hot shot group of musicians with a wide variety of credits to their name.

So practice your jitterbug or lindy hop and get jumpin'!
