Johnny Cash Tribute

Johnny Cash recorded nearly 1500 songs on over 470 albums. A quick review of his career shows he was not merely the most successful country artist, but also one of the most successful artists in popular music having put 48 singles on the Billboard 100 pop charts which is one more than The Rolling Stones.

Johnny Cash was one of the few people in the history of music to sell over 50 million records.

The Johnny Cash stage show is truly a tribute to the legend himself.

The show is performed by Canadian Entertainer Dail Platz who has been

able to capture not only the vocal style but the look and the personality of Johnny Cash.

A versatile musician, Dail also plays 5 string banjo, Acoustic guitar, Electric Guitar, Mandolin & Fiddle.

Other tributes included in the show are: Willie Nelson – Charlie Daniels and Johnny Horton featuring many Aussie favourites like The Devil went down to Georgia, Dueling Banjos, The Battle of New Orleans etc.

Dail takes pride in presenting a “Real Stage Show” with front of house production, full stage backdrop, follow spot and awesome costumes.
